

Omega Therapeutics to Present at the 42nd Annual J.P. Morgan Healthcare Conference

January 2, 2024 9:05 PM EST

CAMBRIDGE, Mass., Jan. 02, 2024 (GLOBE NEWSWIRE) -- Omega Therapeutics, Inc. (Nasdaq: OMGA) ("Omega"), a clinical-stage biotechnology company pioneering the development of a new class of programmable epigenomic mRNA medicines, today announced that management will present at the 42nd Annual J.P. Morgan Healthcare Conference taking place in San Francisco on Thursday, January 11, 2024, at 9:45 a.m. PT (12:45 p.m. ET).

A live webcast of the presentation will be available on the Investors section of the Company's website at www.omegatherapeutics.com. An archived replay of the presentation will be available on the same website for approximately 90 days.

About Omega Therapeutics

Omega Therapeutics is a clinical-stage biotechnology company pioneering the development of a new class of programmable epigenomic mRNA medicines to treat or cure a broad range of diseases. By pre-transcriptionally modulating gene expression, Omega's approach enables controlled epigenomic modulation of nearly all human genes, including historically undruggable and difficult-to-treat targets, without altering native nucleic acid sequences. Founded in 2017 by Flagship Pioneering following breakthrough research by world-renowned experts in the field of epigenetics, Omega is led by a seasoned and accomplished leadership team with a track record of innovation and operational excellence. The Company is committed to revolutionizing genomic medicine and has a diverse pipeline of therapeutic candidates derived from its OMEGA platform spanning oncology, regenerative medicine, multigenic diseases including immunology, and select monogenic diseases.
